FORMATION OF LIMITED PARTNERSHIP  
AND  
DEEMED DISPOSAL OF SUBSIDIARIES**

#### INTRODUCTION

Reference is made to the Announcement. On 30 May 2022, Hunan Green Energy, an indirect wholly-owned subsidiary of the Company, entered into the Partnership Agreement with China Cinda and Cinda Capital for the establishment of the Limited Partnership. According to the Partnership Agreement, the total amount of capital commitments of the Limited Partnership is RMB1.251 billion, of which Cinda Capital (as general partner) will contribute RMB1.00 million, while Hunan Green Energy and China Cinda (as limited partners) will contribute RMB750 million and RMB500 million, respectively.

---

## LETTER FROM THE BOARD

---

Under the Partnership Agreement, the capital commitment of RMB750 million responsible by Hunan Green Energy will be paid by cash and the transfer of 99% equity interest in the Target Companies, including Xinjiang Xingye and Wuwei Dongrun, to the Limited Partnership. The Target Companies principally develop and engage in several photovoltaic power generation projects and own certain photovoltaic assets. The Target Companies are wholly-owned by Hunan Green Energy and are indirect wholly-owned subsidiaries of the Company as at the date of this circular. Following the establishment of the Limited Partnership, the Limited Partnership will further invest into the Target Companies through capital injection, and the Limited Partnership will effectively own 99.38% equity interest in Xinjiang Xingye and 99.48% equity interest in Wuwei Dongrun.

The transfer of equity interest in the Target Companies from Hunan Green Energy to the Limited Partnership and the further capital injection into the Target Companies by the Limited Partnership constitute deemed disposal of subsidiaries by the Company as the effective interest held by the Company will be reduced from 100% to 60.20% in Xinjiang Xingye and from 100% to 60.16% in Wuwei Dongrun.

Upon the establishment of the Limited Partnership, the Limited Partnership and the Target Companies will be accounted for as subsidiaries of the Company, and their results will be consolidated into the Group's financial statements.

As one or more of the applicable percentage ratios (as calculated under Rule 14.07 of the Listing Rules) in respect of the transactions contemplated under the Partnership Agreement (including the establishment of the Limited Partnership and the deemed disposal of subsidiaries by the Company) exceed 25% but less than 75%, the entering into of the Partnership Agreement constitutes a major transaction of the Company under Chapter 14 of the Listing Rules and is therefore subject to reporting, announcement, circular and Shareholders' approval requirements under Chapter 14 of the Listing Rules.

The purpose of this circular is to provide you with, among other things, (i) further information in respect of the transactions contemplated under the Partnership Agreement; and (ii) other information as required under the Listing Rules.

## LETTER FROM THE BOARD

**Committed capital contribution:**

The total amount of capital commitments of the partners to the Limited Partnership under the Partnership Agreement is RMB1.251 billion.

Cinda Capital (as general partner) will be contributing RMB1 million (representing approximately 0.08% of the total commitments). Pursuant to the Partnership Agreement, Cinda Capital shall make the contribution of RMB1 million by way of cash before 19 April 2024. As at the Latest Practicable Date, the contribution of RMB1 million has been fully paid by Cinda Capital.

China Cinda (as limited partner) will be contributing RMB500 million (representing approximately 39.97% of the total commitments). Pursuant to the Partnership Agreement, China Cinda shall make the contribution of RMB500 million by way of cash before 19 April 2024. As at the Latest Practicable Date, the contribution of RMB500 million has been fully paid by China Cinda.

Hunan Green Energy (as limited partner) will be contributing RMB750 million (representing approximately 59.95% of the total commitments), of which RMB571.23 million will be satisfied by the transfer of 99% equity interest in Xinjiang Xingye to the Limited Partnership, RMB147.51 million will be satisfied by the transfer of 99% equity interest in Wuwei Dongrun to the Limited Partnership, and the remaining RMB31.26 million will be paid by cash. Pursuant to the Partnership Agreement, Hunan Green Energy shall make the contribution of RMB750 million before 19 April 2024.

The consideration of RMB571.23 million for the transfer of 99% equity interest in Xinjiang Xingye and RMB147.51 million for the transfer of 99% equity interest in Wuwei Dongrun, which were at approximately 7% and 1.3% discount to their respective net asset value as at 31 December 2021, were determined after arm's length negotiation among the parties, where the Company has taken into account factors including that (i) the formation of the Limited Partnership will greatly enhance the business prospects of the Target Companies with the management experience and resources provided by Cinda Capital and China Cinda which will be beneficial to the financial position of the Group; (ii) the collaboration with Cinda Capital and China Cinda will enable the Group to build up business connections with them which are sizable asset management and financial services firms owned by the Ministry of Finance of the PRC and the Group will be able to expand their business in the future with potential new investment opportunities introduced by Cinda Capital and China Cinda, which is beneficial to the business

operation of the Group; (iii) the Company has conducted an internal assessment based on a research of several transactions in the market involving companies with similar assets and business operations to the Target Companies. The Company has selected three similar transactions for comparison with selection criteria for the comparable companies including (a) the business of the comparable companies, where they were mainly engaged in the construction and operation of photovoltaic power generation projects; (b) the completeness of transaction data available in the public domain; (c) the timing of the transactions of the comparable companies, which were within five years prior to the date of entering into of the Partnership Agreement; and (d) the financial data of the comparable companies, which were similar and comparable to the Group. Based on the market information, the Company has made reference to the transaction values of the three comparable companies and compared several factors of the comparable companies with the Target Companies, including the hours of usage and remaining available hours of the power stations owned by the comparable companies, the electricity price and the tax incentives and subsidizations from the government. The transaction values of the three comparable companies were adjusted accordingly under the internal assessment based on the comparison of the above factors with each of the Target Companies, and the adjusted transaction values of the comparable companies were in turn used to compute the estimated value of each of Target Companies, being the average of the relevant adjusted transaction values of the three comparable companies. Given the level of detail and the range of comparisons with the comparable companies under the internal assessment, the Directors considered that the estimated values of the Target Companies as computed under the internal assessment were the quantitative basis for determination of the considerations for the transfer of 99% equity interest of the Target Companies and concluded that the considerations were fair and reasonable; and (iv) the asset value of the Target Companies were calculated and booked with reference to the cost of investment by the Group in the Target Companies under the applicable accounting treatment. The photovoltaic power facilities owned by the Target Companies were built in 2013 when the investment cost was relatively higher than the recent investment cost for similar facilities due to the advancement of photovoltaic power technology in recent years that facilities with similar installed capacity and average utilisation hours can be built with lower cost. The Directors therefore believe that the net asset value of the Target Companies as recognised by the Group shall not be the only reference for determining the consideration.

---

## LETTER FROM THE BOARD

---

In light of the above basis and reasons, the Board considers that the considerations for the transfer of the Target Companies to the Limited Partnership are fair and reasonable, given they were at 7% and 1.3% discount to their respective net asset value as at 31 December 2021.

The amount of capital contribution by each partner are determined after arm's length negotiations among Cinda Capital, China Cinda and Hunan Green Energy having taken into account, among other things, the business prospect of the Target Companies and the proposed amount of investment into the Target Companies as agreed between the partners. The total cash portion of the capital contribution of RMB532.26 million by the partners will be used as working capital for the expansion of the photovoltaic power generation business of the Target Companies. It was expected that the Target Companies will implement the expansion plan by 2024 at the latest which will provide flexibility for the partners to fulfil their respective capital commitment, i.e. before 19 April 2024, as stipulated under the Partnership Agreement. As at the Latest Practicable Date, the capital contribution of Cinda Capital and China Cinda has been fully paid up. As such, it is intended that RMB100 million, RMB200 million and RMB232.26 million will be utilised by the Target Companies in the year 2022, 2023 and 2024, respectively, for the construction and expansion of photovoltaic power generation infrastructure.

It is expected that the capital commitment payable in cash by Hunan Green Energy will be funded by internal resources of the Group.

The Limited Partnership and the Target Companies will be accounted for as subsidiaries of the Company, and their results will be consolidated into the Group's financial statements.

**Management of  
the Limited Partnership:**

Cinda Capital, the general partner, will be the executive partner of the Limited Partnership and will be responsible for the operation and management of the Limited Partnership and act on behalf of the Limited Partnership externally.

The executive partner will be entitled to receive a management fee payable quarterly from the Limited Partnership calculated at the annual rate of 0.3% of the balance of the paid-up capital contribution of China Cinda, i.e. the original amount of paid-up capital contributed by China Cinda minus the amount of fund returned or distributed from the Limited Partnership to China Cinda from time to time.

---

## LETTER FROM THE BOARD

---

The executive partner has the sole right to decide and direct the Limited Partnership to execute or act on certain corporate affairs in respect of the Limited Partnership, including (i) the change of name of the Limited Partnership; (ii) the engagement of professional advisers to provide services for the Limited Partnership; (iii) the handling of banking, audit and tax matters for the Limited Partnership; (iv) the dispute resolution procedures for any dispute where the Limited Partnership is involved; (v) the signing and execution of documents on behalf of the Limited Partnership; (vi) the monitoring of the operation of the Target Companies and the exercise of any shareholder's rights in the Target Companies as directed by the investment decision committee of the Limited Partnership; (vii) the distribution of profits to the partners; and (viii) any further action to obtain or maintain the legal rights of the Limited Partnership.

The other partners shall have the authority to monitor and supervise the execution of the affairs in the Limited Partnership by the executive partner.

**Partners' meeting:**

A partners' meeting shall be composed of all partners in the Limited Partnership. The partners' meeting shall be convened at least once a year and presided over by the executive partner. At the partners' meeting, the partners shall exercise their voting rights in accordance with the proportion of their paid-up capital contributions. Certain matters shall be discussed at the partners' meeting and shall be approved by the partners with 50% or more of the actual paid-up capital contributed by all partners to the Limited Partnership, including (i) the dissolution or extension of the Limited Partnership; (ii) the removal or replacement of the general partner; (iii) the creation of debts or provision of guarantees to any third parties; (iv) the distribution of profits to the partners on any non-cash basis; and (v) the entering into any transactions by the Limited Partnership with the partners or their related parties.

**Investment into the  
Target Companies:**

Upon establishment of the Limited Partnership and the transfer of 99% equity interest in the Target Companies to the Limited Partnership by Hunan Green Energy as part of the capital commitments, the Limited Partnership shall make the following further investment in the Target Companies:

---

## LETTER FROM THE BOARD

---

- (1) The Limited Partnership shall make an additional capital contribution of RMB360 million in Xinjiang Xingye to subscribe for an increased registered capital of RMB273.44 million in Xinjiang Xingye. The increased registered capital of RMB273.44 million in connection with the capital contribution of RMB360 million was calculated with reference to the total value of 100% equity interest of Xinjiang Xingye at RMB577 million (based on the consideration of RMB571.23 million for the transfer of 99% equity interest in Xinjiang Xingye from Hunan Green Energy to the Limited Partnership) and the total registered capital of Xinjiang Xingye at RMB438.27 million before the capital injection. After the capital injection, the registered capital of Xinjiang Xingye will be increased from RMB438.27 million to RMB711.71 million and the Limited Partnership will effectively own 99.38% equity interest in Xinjiang Xingye, which was calculated based on the sum of 99% of the registered capital of Xinjiang Xingye before the capital injection and the increased registered capital of RMB273.44 million under the capital injection. The remaining 0.62% equity interest will be owned by Hunan Green Energy and the effective interest held by the Company (through Hunan Green Energy) in Xinjiang Xingye will be 60.2%. The effective interest in Xinjiang Xingye owned by the Company (through Hunan Green Energy) after the capital injection was the sum of the equity interest of 0.62% owned directly by Hunan Green Energy and the equity interest of 59.58% owned by Hunan Green Energy through the Limited Partnership as calculated based on the percentage of the capital commitments made by Hunan Green Energy to the Limited Partnership (59.95%) to the total commitments by the partners.
- (2) The Limited Partnership shall make an additional capital contribution of RMB140 million in Wuwei Dongrun to subscribe for an increased registered capital of RMB4.70 million in Wuwei Dongrun. The increased registered capital of RMB4.70 million in connection with the capital contribution of RMB140 million was calculated with reference to the total value of 100% equity interest of Wuwei Dongrun at RMB149 million (based on the consideration of RMB147.51 million for the transfer of 99% equity interest in Wuwei Dongrun from Hunan Green Energy to the Limited Partnership) and the total registered capital of Wuwei Dongrun at RMB5 million before the capital injection. After the capital injection, the registered capital of Wuwei Dongrun will be increased from RMB5 million to RMB9.70 million and the Limited Partnership

will effectively own 99.48% equity interest in Wuwei Dongrun, which was calculated based on the sum of 99% of the registered capital of Wuwei Dongrun before the capital injection and the increased registered capital of RMB4.70 million under the capital injection. The remaining 0.52% equity interest will be owned by Hunan Green Energy and the effective interest held by the Company (through Hunan Green Energy) in Wuwei Dongrun will be 60.16%. The effective interest in Wuwei Dongrun owned by the Company (through Hunan Green Energy) after the capital injection was the sum of the equity interest of 0.52% owned directly by Hunan Green Energy and the equity interest of 59.64% owned by Hunan Green Energy through the Limited Partnership as calculated based on the percentage of the capital commitments made by Hunan Green Energy to the Limited Partnership (59.95%) to the total commitments by the partners.

The following diagram sets forth a structure chart of the Limited Partnership and the Target Companies immediately after completion of the above further investment:

---

## LETTER FROM THE BOARD

## LETTER FROM THE BOARD

---

The transfer of equity interest in the Target Companies from Hunan Green Energy to the Limited Partnership and the further capital injection into the Target Companies by the Limited Partnership constitute deemed disposal of subsidiaries by the Company as the effective interest held by the Company will be reduced from 100% to 60.20% in Xinjiang Xingye and from 100% to 60.16% in Wuwei Dongrun. Subject to final audit, the Group is expected to realise a loss on disposal of approximately RMB6.5 million upon completion of the deemed disposal. Given the reasons stated in the below paragraph headed “Reasons for and benefits of establishing the Limited Partnership”, including that the transaction will enable the Target Companies to expand their business in photovoltaic power generation and the Group to benefit from a wealth of attractive investment opportunities from Cinda Capital and China Cinda, the Directors consider that the entering into of the Limited Partnership shall be beneficial to the future development of the Group and the benefits shall outweigh the loss of approximately RMB6.5 million from the deemed disposal.

### REASONS FOR AND BENEFITS OF ESTABLISHING THE LIMITED PARTNERSHIP

The Limited Partnership will be principally engaged in equity investment. As Cinda Capital and China Cinda are companies engaging in the financial sector, the establishment of limited partnerships is the usual and preferred method of Cinda Capital and China Cinda for investment into target companies in different sectors including the construction industry to ensure better management and operation of the target companies, as opposed to a direct capital injection into the target companies. The Board considers that the establishment of the Limited Partnership and the further investment by the Limited Partnership in the Target Companies contemplated under the Partnership Agreement will enable the Target Companies to expand their business in photovoltaic power generation and the Group to benefit from a wealth of attractive investment opportunities from Cinda Capital and China Cinda in the future and enhance the growth and development of the Group. It is contemplated that the Limited Partnership will be a new source of income for the Group.

In view of the above, the Board considers that the terms of the Partnership Agreement are on normal commercial terms and are fair and reasonable, and that the entering into of the Partnership Agreement and the deemed disposal are in the interests of the Company and its shareholders as a whole.

### LISTING RULES IMPLICATIONS

As one or more of the applicable percentage ratios (as calculated under Rule 14.07 of the Listing Rules) in respect of the transactions contemplated under the Partnership Agreement (including the establishment of the Limited Partnership and the deemed disposal of subsidiaries by the Company) exceed 25% but less than 75%, the entering into of the Partnership Agreement constitutes a major transaction of the Company under Chapter 14 of the Listing Rules and are therefore subject to reporting, announcement, circular and Shareholders’ approval requirements under Chapter 14 of the Listing Rules.
